

Journal of Earth Energy Engineering

P-ISSN 2301-8097

VOL. 12 NO. 2s 2023: IC-UPERTAIN 2022

E-ISSN 2540-9352

**Identification of Reservoir Distribution Using Extended Elastic Impedance (EEI) Inversion in the “Z” Filed
of the Kutai Basin**

Zikra Miftahul Haq, Eki Komara, Wien Lestari

Page 1-10

The development of geothermal energy as a renewable power plant

Dennya Angeline Ardiyanto Putri, Muhammad Sulhan

Page 11-15

Production optimization in Well A and Well B using electric submersible pump (ESP)

Weny Astuti, Wahyu Tri Mulyono

Page 16-26

**Analysis of surfactant and polymer behavior on water/oil system as additives in enhanced oil recovery
(EOR) technology through molecular dynamics simulation: a preliminary study**

Muhammad Hasbi Ar-Raihan, Raisya Salsabila, Azis Adharis, Paramita Jaya Ratri, Tirta Rona Mayangsari

Page 27-39

**4D Seismic Inversion and Rock Physic Modeling to Monitor CO₂ Injection at Carbon Capture and
Storage Project in The Utsira Formation, Sleipner Field, North Sea, Norway**

Bastian Torus, Kunti Yoga Arista, Elta Purnama Wulan, Muhammad Husni Mubarak Lubis, Ida Herawati,

Waskito Pranowo

Page 40-52

**4D Seismic Inversion and Rock Physic Modeling to Monitor CO₂ Injection at Carbon Capture and
Storage Project in The Utsira Formation, Sleipner Field, North Sea, Norway using Inversion Method**

Brimas Aptanindia, Muhammad Husni Mubarak Lubis

Page 53-66

SCOPE OF JOURNAL

This journal aims to promote excellence in the fields of earth science and energy. The journal welcomes contribution in such areas of current analysis particularly in fossil energy exploration, extraction, and processing. The priority areas include enhanced oil recovery, reservoir engineering, formation evaluation, production technique, drilling and drilling fluids, petroleum geology, and petroleum

economics. This journal also publishes original works, from fundamental principles to practical applications in the field of energy utilization, energy conservation, and sustainable energy.

This journal accepts articles on any earth and energy-related subjects and any research methodology that meet the standards established for publication in the journal. The primary criterion for publication in Journal of Earth Energy Engineering is the significance of the contribution an article makes to the literature in earth and energy research area, i.e., the significance of the contribution and on the rigor of analysis and presentation of the paper. The acceptance decision is made based upon an independent review process that provides critically constructive and prompt evaluations of submitted manuscripts.

ABOUT THE JOURNAL

Journal of Earth Energy Engineering (pISSN 2301-8097, eISSN 2540-9352) is the leading primary research journal in the fields of earth science and energy with a particular focus on fossil energy exploration, extraction, and processing. Journal of Earth Energy Engineering is published by Universitas Islam Riau (UIR) Press, three times a year, every April, August, and December. From its launch in 2012 to the present day, Journal of Earth Energy Engineering publishes papers on every aspect of fossil energy-based, from the start of the extraction process in drilling and completion technology, reservoir studies, and new method of recovery to the various production technique (see Focus and scope). Our authors and readers reflect a broad interdisciplinary group of scientists who study fossil energy exploration, extraction, and processing.

All research articles published in Journal of Earth Energy Engineering are subject to rigorous double-blind peer review, and editorial decisions are made by a team of expert researchers in the field, supported by an International Editorial Board. Journal of Earth Energy Engineering is indexed in Directory of Open Access Journal (DOAJ), Google Scholar, Science and Technology Index (SINTA S3), Indonesian Publication Index (IPI), and BASE, and has been ACCREDITED by Ministry of Research, Technology, and Higher Education of the Republic of Indonesia, No.10/E/KPT/2019, April 4, 2019 as 3rd Rank, SINTA S3.
