VOL. 9 NO. 2, OCTOBER 2020

E-ISSN 2540-9352

Hydrocarbon Generation History of Tertiary Source Rocks in Phu Khanh Basin, Offshore Vietnam

X H Nguyen, Thi T Trang Nguyen, V N Nguyen, Thi H Q Vo

Page 59-65

**Engineering Design and Feasibility Analysis of Geothermal-heated Swimming Pool in Lembang,
West Java**

Allen Haryanto Lukmana, Rizqi Mahfudz Prasetyo, Ria Ayu Rifani

Page 66-79

**Combination of Cyclic Steam Stimulation and Steam Flooding to Improve Oil Recovery in
Unconsolidated Sand Heavy Oil Reservoir**

A M Suranto, Boni Swadesi, Indah Widyaningsih, Ratna Widyaningsih, Sri Wahyu Murni, L A Alannafi

Page 80-87

**A Mathematical Model of Intermittent Gas Lift in Elevation-Production Operation with
Line-Pack and Line-Drafting Phenomena in a Gas Line**

Silvy D Rahmawati, Tasmi, Pudjo Sukarno, Agus Y Gunawan, Edy Soewono, Septorotno Siregar,

Edward L Tobing

Page 88-101

Application of Pineapple Skin Waste as a Source of Biosolvent for Use as Wax Inhibitor

M K Afdhol, T Erfando, F Hidayat, R Hasibuan, M Y Hasibuan, C P Siregar

SCOPE OF JOURNAL

This journal aims to promote excellence in the fields of earth science and energy. The journal welcomes contribution in such areas of current analysis particularly in fossil energy exploration, extraction, and processing. The priority areas include enhanced oil recovery, reservoir engineering, formation evaluation, production technique, drilling and drilling fluids, petroleum geology, and petroleum economics. This journal also publishes original works, from fundamental principles to practical applications in the field of energy utilization, energy conservation, and sustainable energy.

Journal of Earth Energy Engineering

Accredited by Directorate General of Strengthening for Research and Development, Ministry of Research, Technology, and Higher Education of Republic Indonesia No: 10/E/KPT/2019

This journal accepts articles on any earth and energy-related subjects and any research methodology that meet the standards established for publication in the journal. The primary criterion for publication in Journal of Earth Energy Engineering is the significance of the contribution an article makes to the literature in earth and energy research area, i.e., the significance of the contribution and on the rigor of analysis and presentation of the paper. The acceptance decision is made based upon an independent review process that provides critically constructive and prompt evaluations of submitted manuscripts.

ABOUT THE JOURNAL

Journal of Earth Energy Engineering (pISSN 2301-8097, eISSN 2540-9352) is the leading primary research journal in the fields of earth science and energy with a particular focus on fossil energy exploration, extraction, and processing. Journal of Earth Energy Engineering is published by Universitas Islam Riau (UIR) Press, twice a year, every April and October. From its launch in 2012 to the present day, Journal of Earth Energy Engineering publishes papers on every aspect of fossil energy-based, from the start of the extraction process in drilling and completion technology, reservoir studies, and new method of recovery to the various production technique (see Focus and scope). Our authors and readers reflect a broad interdisciplinary group of scientists who study fossil energy exploration, extraction, and processing.

All research articles published in Journal of Earth Energy Engineering are subject to rigorous double-blind peer review, and editorial decisions are made by a team of expert researchers in the field, supported by an International Editorial Board. Journal of Earth Energy Engineering is indexed in Directory of Open Access Journal (DOAJ), Google Scholar, Science and Technology Index (SINTA S3), Indonesian Publication Index (IPI), and BASE, and has been ACCREDITED by Ministry of Research, Technology, and Higher Education of the Republic of Indonesia, No.10/E/KPT/2019, April 4, 2019 as 3rd Rank, SINTA S3.

LIST OF CONTENT

Earth Sciences and Energy Exploration Section

- Hydrocarbon Generation History of Tertiary Source Rocks in Phu Khanh Basin, Offshore Vietnam** 59
X H Nguyen, Thi T Trang Nguyen, V N Nguyen, Thi H Q Vo

Energy Storage, Conservation, and Sustainable Energy Section

- Engineering Design and Feasibility Analysis of Geothermal-heated Swimming Pool in Lembang, West Java** 66
Allen Haryanto Lukmana, Rizqi Mahfudz Prasetyo, Ria Ayu Rifani

EOR, Reservoir, and Production Engineering Section

- Combination of Cyclic Steam Stimulation and Steam Flooding to Improve Oil Recovery in Unconsolidated Sand Heavy Oil Reservoir** 80
A M Suranto, Boni Swadesi, Indah Widyaningsih, Ratna Widyaningsih, Sri Wahyu Murni, L A Alannafi
- A Mathematical Model of Intermittent Gas Lift in Elevation-Production Operation with Line-Pack and Line-Drafting Phenomena in a Gas Line** 88
Silvy D Rahmawati, Tasmi Tasmi, Pudjo Sukarno, Agus Y Gunawan, Edy Soewono, Septoratto Siregar, Edward L Tobing
- Application of Pineapple Skin Waste as a Source of Biosolvent for Use as Wax Inhibitor** 102
M K Afdhol, T Erfando, F Hidayat, R Hasibuan, M Y Hasibuan, C P Siregar
